

## Server Administration Detailed Results

**Test:** Server Administration  
**Date:** 07-Sep-2018  
**Score:** 3.81  
**Correct / Total:** (26/40)

| Topics / Subtopics                      | Correct / Total |
|---|-----------------|
| <b>Security</b>                         | <b>(4/5)</b>    |
| Firewall and IDS                        | (3/3)           |
| Authentication and Authorization        | (0/1)           |
| Passwords and Auditing                  | (1/1)           |
| <b>Hardware</b>                         | <b>(3/3)</b>    |
| Storage                                 | (1/1)           |
| Memory                                  | (1/1)           |
| NIC/HBA/Remote Management Adapters      | (1/1)           |
| <b>Design, Build, and Deploy</b>        | <b>(5/6)</b>    |
| Existing Infrastructure                 | (1/1)           |
| Considerations                          | (3/3)           |
| Deployment                              | (1/2)           |
| <b>Troubleshooting and Optimization</b> | <b>(5/9)</b>    |
| Server                                  | (1/2)           |
| Virtual Environment                     | (0/2)           |
| Data Maintenance                        | (0/1)           |
| Network                                 | (4/4)           |
| <b>Users and Resources</b>              | <b>(2/4)</b>    |
| Network Appliances                      | (1/1)           |
| Users and Groups                        | (1/3)           |
| <b>Management Process</b>               | <b>(0/3)</b>    |
| Incident Response                       | (0/1)           |
| Change Management                       | (0/1)           |
| Monitoring and Logging                  | (0/1)           |
| <b>Network</b>                          | <b>(4/6)</b>    |
| Routing and Switching                   | (2/3)           |
| Security-based Networks                 | (1/2)           |
| OSI Model                               | (1/1)           |
| <b>Disaster Recovery</b>                | <b>(3/4)</b>    |
| Down Time                               | (1/1)           |
| Verification                            | (1/1)           |
| Backup                                  | (0/1)           |
| Recovery                                | (1/1)           |
